

ATEX

Directive 2014/34/EU

sira
CERTIFICATION

1 Statement of Exclusion

2 Sira Reference Number: **Sira 17E223** Issue: **0**
3 Products: **Lockout/Tagout Devices, Padlocks, Accessories, Kits & Stations**
4 Manufacturer: **Master Lock Europe S.A.S**
5 Address: **10, Avenue de l'Arche, Le Colisée Gardens,
Bâtiment A, 92400 Courbevoie, La Défense,
France**

6 The product has been assessed with reference to the regulations defined in Directive 2014/34/EU and relevant guidelines on the application of Directive 2014/34/EU, published by the European Commission.

7 Sira has reviewed the design and construction of the products listed. It is Sira's opinion that the product does not fall within the scope of Directive 2014/34/EU. The basis of this judgement is detailed as follows:

The products do not have any moving parts, electrical circuits or other parts that would provide an effective ignition source under normal operation, expected malfunction or rare malfunction.

The products do not have their own source of ignition, therefore they do not fall within the scope of Directive 2014/34/EU.

Ignition risks related to conditions of use are controlled by the end user and do not bring the product into the scope of the ATEX Directive 2014/34/EU. These risks have to be considered under the requirements of ATEX 137 Directive. Parts of the equipment are non-conducting and may generate an ignition-capable level of electrostatic charge under certain extreme conditions. The end user shall ensure that the equipment is not used in a way that might cause a build-up of electrostatic charge on non-conducting surfaces. In addition the materials the tools are manufactured from shall be considered with respect to potential sparking hazards from mechanical impact.

8 This statement of opinion relates only to the design and construction of the specified equipment with respect to Directive 2014/34/EU.

9 Requirements of other EU Directives may apply to the design and construction of this equipment.

10 The manufacturing process relating this equipment has not been assessed and is not the subject of surveillance by Sira.

11 The manufacturer is not required to inform Sira of design changes and as such this statement relates only to the design, assessed as submitted prior to the date of this statement.

12 The definition of the scope of products falling within the scope of Directive 2014/34/EU is ultimately the responsibility of the EU standing Committee for the Directive. Sira's opinion is offered in lieu of a specific consideration by the standing committee.

ATEX

Directive 2014/34/EU

- 13 This Statement of Exclusion does not preclude the application of local, national or international codes of practice for installation selection or maintenance for any products used in potentially explosive atmospheres.
- 14 Schedule of products examined:
- | | |
|---------------------------|---|
| Padlocks: | 406 series, S31 series, S32 series, S33 series and 410 series |
| Hasps: | 428, S430, S440 and S450 |
| Various tags/labels: | Guardian Extreme tags (S4002 series and 497 series), S297 series and S4810 series |
| Circuit breaker lockouts: | S2391, S2392, S2393, S2394, 491B and 493B |
| Gate valve lockout: | 480 – 484 |
| Cable lockout: | S806, S866 and S856 |
| Lockout station: | 1482B, S1800, S1850, S3500, S3501 and S3502 |
| Butterfly valve lockout: | S3920 |
| Blind flange lockout: | S3922, S3923 and S3924 |
| Group lockout box: | S600, S601 and S602 |
| Ball valve lockout: | S3080 and S3081 |
| Covers: | S201 series, S202 series and S203 series |
